OUR HISTORY

Since 1931, remarkable teachers at Anderson School inspired junior high students to become--among many other professions--the first female U.S. Senator from the State of Washington, a NFL football player, the first American woman to sail solo around the world, and a pioneering physicist who did groundbreaking studies of late-stellar evolution and cosmology!

Then in 1973, the school building became an alternative high school for the district, called Secondary Academy for Success, a model for similar programs around the country. SAS moved to a new building in 2009, and McMenamins opened Anderson School in October 2015.
