## OUR HISTORY

Built in 1931 as Bothell Junior High School, the building was renamed W.A. Anderson School in 1956 after its beloved retiring principal. Classes continued to be held here until 2009. Over the decades, remarkable teachers have inspired students to become, among other things, the first female U.S. Senator from the State of Washington, an NFL football player, a pioneering physicist of late stellar cosmology and the first American woman to sail solo around the world! The entire property – hotel, bars, swimming pool, theater and more – encompasses nearly five and a half acres and is about 13 miles north of downtown Seattle.
